APPLIED APOLOGETICS: DISCOVERY & DISCUSSION

DESCRIPTION:
Students will actively explore and discuss powerful evidence for the Biblical God that other world views cannot explain. Through short videos, group discussions, hands-on discovery activities, and respectful debates, students will examine scientific realities and non-material evidences such as information, language, design, logic, morality, music, beauty, fine-tuning, and more. Students will learn about opposing views and will be able demonstrate why the Biblical position offers the most reasonable and coherent explanation based on the evidence. By the end of the course, participants will be equipped and confident to engage today's biggest questions with intellectual rigor and in a Christ-like grace.
